CHICAGO CHURCH "KITTY"

NETS HANDSOME SUM

Chicago, Nov. 29.—The Forty-ninth Avenue Methodist-Episcopal church has started a "kitty", only it is not called a "kitty" but a "Josiah Chest." It was named in honor of the Biblical character who took the chest, as the story reads in the Second Kings, and "bored a hole in the lid and set it beside the altar and there received all the money that the people brought into the house of the Lord." Nearly five hundred dollars was dropped into the "kitty" at the services yesterday. As a result of one month of self-denial on the part of the donors, one sad man had tabooed cigars for a month and his wad was goodly; walks instead of street car rides, buns cut out of the morning meal and the purchase of much desired gloves postponed were some of the factors that made the offerings possible. The offerings are to be used in redecorating the church.

DISCUSS NEED FOR

LIGHTS ON WEST SIDE

At a meeting of the board of directors of the Las Vegas club on Saturday evening at the club rooms on the West side the matter of lighting the town was taken up. A committee consisting of Charles Hild, J. D. W. Veeder and Cecilio Rosenwald was appointed by the club to meet with the town council at the next meeting and determine what should be done in the premises. A committee from the town council consisting of N. O. Herman and Susano Montano was present at the club meeting.

The question of what should be done with the flood waters that flow down Bridge street was also taken up for consideration. A resolution was adopted providing that no opening be made through the new concrete bridge but that the waters be carried around it.

ALABAMA VOTING ON

THE LIQUOR QUESTION

Birmingham Ala., Nov. 29.—Alabama today is voting on the proposed amendment to the state constitution, which if adopted, will absolutely shut liquor out of this state. Band music was played around each of the four polling places in Birmingham early today to drown out the prayers, singing and pleadings of women and children, who gathered there in an effort to influence votes for prohibition. Excitement is intense and business is practically suspended today in Birmingham.

NO DANGER FROM THE USE OF MILK BOTTLES

It is generally known and always has been understood that J. P. Geyer does and always has run a sanitary dairy, but he wishes to impress upon the minds of his customers that there is absolutely no danger of contracting any disease by the use of his bottles. Every bottle is thoroughly sterilized with steam by the use of a sterilizing oven, manufactured for that purpose. All milk bottles are placed in this air tight oven, steam turned on and they are heated to the boiling point temperature for one half hour or more. Geyer also keeps a tested dairy herd.

The above statement of facts are correct.

J. P. GEYER.
